-

Securities registered pursuant to Section 12(b) of the Act:

Registrant	Title of each class	Trading Symbol(s)	Name of each exchange on which registered
BXP, Inc.	Common Stock, par value \$0.01 per share	BXP	New York Stock Exchange

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

BXP, Inc.:
Emerging growth company ☐

Boston Properties Limited Partnership:
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

BXP, Inc. ☐ Boston Properties Limited Partnership ☐

Item 2.02. Results of Operations and Financial Condition.

The information in this Item 2.02 - "Results of Operations and Financial Condition" is being furnished. Such information, including Exhibits 99.1 and 99.2 hereto, shall not be deemed "filed" for any purpose, including for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that Section. The information in this Item 2.02, including Exhibits 99.1 and 99.2, shall not be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act regardless of any general incorporation language in such filing.

On July 28, 2026, BXP, Inc. (the "Company"), the general partner of Boston Properties Limited Partnership, issued a press release announcing its financial results for the second quarter ended 2026. That press release referred to certain supplemental information that is available on the Company's website. The text of the supplemental information and the press release are attached hereto as Exhibits 99.1 and 99.2, respectively, and are incorporated by reference herein.

Item 9.01. Financial Statements and Exhibits.

Supplemental Operating and Financial Data
for the Quarter Ended June 30, 2026

THE COMPANY

BXP, Inc. (NYSE: BXP) ("BXP" or the "Company") is the largest publicly traded developer, owner, and manager of premier workplaces in the United States, concentrated in six dynamic gateway markets - Boston, Los Angeles, New York, San Francisco, Seattle, and Washington, DC. BXP has delivered places that power progress for our clients and communities for more than 55 years. BXP is a fully integrated real estate company, organized as a real estate investment trust (REIT). As of June 30, 2026, including properties owned by joint ventures, BXP's portfolio totals 51.1 million square feet and 164 properties, including six properties under construction/redevelopment. BXP's portfolio consists of 143 office properties, 13 retail properties, seven residential properties (including four residential properties under construction) and one hotel. BXP is well-known for its in-house building management expertise and responsiveness to clients' needs. BXP holds a superior track record of developing premium Central Business District (CBD) office buildings, successful mixed-use complexes, suburban office centers and build-to-suit projects for a diverse array of creditworthy clients. BXP actively works to promote its growth and operations in a sustainable and responsible manner. BXP has earned a fourteenth consecutive GRESB "Green Star" recognition and the highest GRESB 5-star Rating and was named one of the world's most sustainable companies by TIME Magazine. BXP, an S&P 500 company, was founded in 1970 by Mortimer B. Zuckerman and Edward H. Linde and became a public company in 1997.

FORWARD-LOOKING STATEMENTS

This Supplemental package contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. You can identify these statements by our use of the words "anticipates," "believes," "budgeted," "could," "estimates," "expects," "guidance," "intends," "may," "might," "plans," "projects," "should," "will," and similar expressions that do not relate to historical matters. These statements are based on our current plans, expectations, projections and assumptions about future events. You should exercise caution in interpreting and relying on forward-looking statements because they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond BXP's control. If our underlying assumptions prove inaccurate, or known or unknown risks or uncertainties materialize, actual results could differ materially from those expressed or implied by the forward-looking statements. These factors include, without limitation, the risks and uncertainties related to adverse changes in general economic and capital market conditions, including continued inflation, elevated interest rates, supply chain disruptions, dislocation and volatility in capital markets, potential longer-term changes in consumer and client behavior resulting from the severity and duration of any downturn in the U.S. or global economy, general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases on favorable terms, sustained changes in client preferences and space utilization, dependence on clients' financial condition, and competition from other developers, owners and operators of real estate), the impact of adverse political conditions, including policy changes by the presidential administration, such as the direct and indirect negative impacts that new and increased tariffs may have on (1) our current and prospective clients and their demand for office space and (2) the costs and availability of construction materials and the economic returns on our construction and development activities, and prolonged government shutdowns or disruptions, the impact of geopolitical conflicts, the uncertainties of investing in new markets, the costs and availability of financing, the effectiveness of our hedging contracts, the ability of our joint venture partners to satisfy their obligations, the effects of local, national and international economic and market conditions, the effects of acquisitions, dispositions and possible impairment charges on our operating results, the impact of newly adopted accounting principles on the Company's accounting policies and on period-to-period comparisons of financial results, the uncertainties of costs to comply with regulatory changes and other risks and uncertainties detailed from time to time in the Company's filings with the Securities and Exchange Commission. These forward-looking statements speak only as of the date of issuance of this report and are not guarantees of future results, performance or achievements. BXP does not undertake a duty to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as otherwise required by law.

NON-GAAP FINANCIAL MEASURES

This Supplemental package includes non-GAAP financial measures, which are accompanied by what the Company considers the most directly comparable financial measures calculated and presented in accordance with GAAP. Quantitative reconciliations of the differences between the most directly comparable GAAP financial measures and the non-GAAP financial measures presented are provided within this Supplemental package. Definitions of these non-GAAP financial measures and statements of the reasons why management believes the non-GAAP measures provide useful information to investors about the Company's financial condition and results of operations, and, if applicable, the other purposes for which management uses the measures, can be found in the Definitions section of this Supplemental starting on page 56.

The Company presents "BXP's Share" of certain non-GAAP financial measures that are calculated as the consolidated amount calculated in accordance with GAAP, plus the Company's share of the amount from the Company's unconsolidated joint ventures (calculated based upon the Company's percentage ownership interest and, in some cases, after priority allocations), minus the Company's partners' share of the amount from the Company's consolidated joint ventures (calculated based upon the partners' percentage ownership interests and, in some cases, after income allocation to private REIT shareholders and their share of fees due to the Company). Management believes that presenting "BXP's Share" of these measures provides useful information to investors regarding the Company's financial condition and/or results of operations because the Company has several significant joint ventures and, in some cases, the Company exercises significant influence over, but does not control, the joint venture, in which case GAAP requires that the Company account for the joint venture entity using the equity method of accounting and the Company does not consolidate it for financial reporting purposes. In other cases, GAAP requires that the Company consolidate the venture even though the Company's partner(s) owns a significant percentage interest. As a result, management believes that presenting BXP's Share of various financial measures in this manner can help investors better understand the Company's financial condition and/or results of operations after taking into account its true economic interest in these joint ventures. The Company cautions investors that the ownership percentages used in calculating "BXP's Share" of these measures may not completely and accurately depict all of the legal and economic implications of holding an interest in a consolidated or unconsolidated joint venture. For example, in addition to partners' interests in profits and capital, venture agreements vary in the allocation of rights regarding decision making (both routine and major decisions), distributions, transferability of interests, financings and guarantees, liquidations and other matters. As a result, presentations of "BXP's Share" of a financial measure should not be considered a substitute for, and should only be considered together with and as a supplement to, the Company's financial information presented in accordance with GAAP. Unless noted otherwise, reconciliations of "BXP's Share" of these financial measures can be found in the Reconciliations section of this Supplemental package starting on page 60.

STRATEGY

BXP's primary business objective is to maximize return on investment in an effort to provide its investors with the greatest possible total return in all points of the economic cycle. To achieve this objective, the key tenets of our long-term business strategy are to:

- continue to embrace our leadership position in the premier workplace segment and leverage our strengths in portfolio quality, client relationships, development skills, market penetration, and sustainability to profitably build market share;
- maintain a keen focus on select dynamic gateway markets that exhibit the strongest economic growth and investment characteristics over time - currently Boston, Los Angeles, New York, San Francisco, Seattle, and Washington, DC;
- invest in the highest quality buildings (primarily premier workplaces) with unique amenities and desirable locations that are able to maintain high occupancy rates and achieve premium rental rates through economic cycles;
- maintain scale and a full-service real estate capability (leasing, development, construction, marketing, legal, and property management) in our markets to ensure we (1) see all relevant investment deal flow, (2) maintain an ability to execute on all types of real estate opportunities, such as acquisitions, dispositions, repositioning and development, throughout the real estate investment cycle, (3) provide superior service to our clients and (4) develop and manage our assets in the most sustainable manner possible;
- ensure a strong balance sheet to maintain consistent access to equity and debt capital and the ability to make new investments at opportune times;
- pursue attractive asset class adjacencies where we have a track record of success, such as life sciences and residential development;
- recycle capital for future investment through disposing of assets that no longer meet our investment profile or provide an opportunity for an attractive sale price relative to reinvestment;
- maintain a leadership position in sustainability innovation to minimize emissions from BXP's development and in-service portfolio, as well as to provide clients sustainable solutions for their space use needs; and
- foster a culture and reputation of integrity, excellence and purposefulness, making us the employer of choice for talented real estate professionals, the landlord and developer of choice for our clients, as well as the counterparty of choice for real estate industry participants.

¹ Common units and LTIP units are units of limited partnership interest in Boston Properties Limited Partnership, the entity through which the Company conducts substantially all of its business.

² For additional detail, see page 28.

³ For the Company's definitions and related disclosures, see the Definitions and Reconciliations sections of this Supplemental package starting on page 56.

GUIDANCE

BXP's guidance for third quarter and full year 2026 for diluted earnings per common share attributable to BXP, Inc. (EPS) and diluted funds from operations (FFO) per common share attributable to BXP, Inc. is set forth and reconciled below. Except as described below, the estimates reflect management's view of current and future market conditions, including assumptions with respect to rental rates, occupancy levels, interest rates, the timing of the lease-up of available space, the timing of development cost outlays and development deliveries, and the earnings impact of the events referenced in the Company's earnings release issued on July 28, 2026 and those referenced during the related conference call. The estimates do not include (1) possible future gains or losses or the impact on operating results from other possible future property acquisitions or dispositions not under contract as of the date hereof, (2) the impacts of any other capital markets activity, (3) future write-offs or reinstatements of accounts receivable and accrued rent balances, or (4) future impairment charges. EPS estimates may fluctuate as a result of several factors, including changes in the recognition of depreciation and amortization expense, impairment losses on depreciable real estate, and any gains or losses associated with disposition activity. BXP is not able to assess at this time the potential impact of these factors on projected EPS. By definition, FFO does not include real estate-related depreciation and amortization, impairment losses on depreciable real estate, or gains or losses associated with disposition activities. For a complete definition of FFO and statements of the reasons why management believes it provides useful information to investors, see page 58. There can be no assurance that BXP's actual results will not differ materially from the estimates set forth below.

	Third Quarter 2026		Full Year 2026	
	Low	High	Low	High
Projected EPS (diluted)	\$ 0.50	\$ 0.52	\$ 2.14	\$ 2.24
Add:				
Projected Company share of real estate depreciation and amortization	1.30	1.30	5.10	5.10
Projected Company share of (gains)/losses on sales of real estate, gain on investment from unconsolidated joint venture and impairments	—	—	(0.25)	(0.29)
Projected FFO per share (diluted)	<u>\$ 1.80</u>	<u>\$ 1.82</u>	<u>\$ 6.99</u>	<u>\$ 7.05</u>

ASSUMPTIONS

(dollars in thousands)

	Full Year 2026	
	Low	High
Operating property activity:		
Average In-service portfolio occupancy ¹	88.50 %	89.25 %
Change in BXP's Share of Same Property net operating income (excluding termination income)	1.80 %	2.60 %

¹ For the three months ended June 30, 2026 and March 31, 2026, includes approximately \$6.0 million and \$16.9 million, respectively, related to the accelerated vesting of non-stock compensation expense for employees who satisfied the conditions for a qualified retirement and approximately \$2.9 million, for each period, related to the 2025 OPP Awards.

² Includes \$4.4 million and \$(0.6) million for the three months ended June 30, 2026 and March 31, 2026, respectively, related to the Company's deferred compensation plan.

³ For the three months ended June 30, 2026 and March 31, 2026, amount includes gains on sales of approximately \$1.2 million and \$41.2 million, respectively.

⁴ For additional detail, see page 14.

⁵ On May 29, 2026, the anticipated sale of the Company's leasehold interest in the Sumner Square property located in Washington, DC met the Company's "held for sale" criteria. Following the classification of a property as "held for sale", the assets are written down to the lower of carrying value or fair market value, less cost to sell. This write down resulted in an impairment. There can be no assurance that the sale will be consummated on the terms currently contemplated or at all.

⁶ For additional detail, see page 7.

¹ See the Definitions and Reconciliations sections of this Supplemental package starting on page 56.² For a quantitative reconciliation for the three months ended June 30, 2026, see page 34.³ For additional information for the three months ended June 30, 2026, see page 37.⁴ Consists of lease transaction costs that qualify as rent inducements in accordance with GAAP. Lease transaction costs are generally included in 2nd generation tenant improvements and leasing commissions in the period the lease commences.⁵ Includes the straight-line impact of the Company's 99-year ground and air rights lease related to the Company's 100 Clarendon Street garage and Back Bay Transit Station. The Company has allocated contractual ground lease payments aggregating approximately \$39.0 million, which it expects to incur by the end of 2027 with no payments thereafter. The Company is recognizing this expense on a straight-line basis over the 99-year term of the ground and air rights lease, see page 3.⁶ See page 62 for additional information.⁷ Represents the net adjustment for above- and below-market leases that are amortized over the terms of the respective leases in place at the property acquisition dates.⁸ Amount represents aggregate tenant improvements and leasing commissions incurred in connection with approximately 1.8 million and 2.3 million square feet of leases that commenced revenue recognition during the three months ended June 30, 2026 and March 31, 2026, respectively, at an average transaction cost per lease year of approximately \$11.55 per square foot and \$10.40 per square foot, respectively. Lease commencements for years 2024 and 2025 averaged approximately 925,000 square feet per quarter at a weighted average transaction cost per lease year of approximately \$11.80 per square foot.⁹ Maintenance capital expenditures do not include capital expenditures that are planned at the time of acquisition or capital expenditures incurred in connection with repositioning activities.

¹ In light of the front-ended, uneven rental payments required by the Company's 99-year ground and air rights lease for the 100 Clarendon Street garage and Back Bay Transit Station in Boston, MA, and to make period-to-period comparisons more meaningful to investors, the adjustment does not include the straight-line impact of approximately \$(4,527) and \$(83) for the three months ended June 30, 2026 and 2025, respectively. As of June 30, 2026, the Company has remaining lease payments aggregating approximately \$15.6 million, all of which it expects to incur by the end of 2027 with no payments thereafter. Under GAAP, the Company recognizes expense of \$(111) per quarter on a straight-line basis over the term of the lease. However, unlike more traditional ground and air rights leases, the timing and amounts of the rental payments by the Company correlate to the uneven timing and funding by the Company of capital expenditures related to improvements at Back Bay Transit Station. As a result, the amounts excluded from the adjustment each quarter through 2027 may vary significantly.

² Consists of lease transaction costs that qualify as rent inducements in accordance with GAAP. Lease transaction costs are generally included in 2nd generation tenant improvements and leasing commissions in the Company's FAD calculation on page 8.

³ Pages 21-24 indicate by footnote the properties that are not included as part of Same Property NOI. In addition, Same Properties exclude properties that were sold prior to June 30, 2026 and therefore are no longer a part of the Company's property portfolio.

⁴ For a quantitative reconciliation for the three months ended June 30, 2026, see page 63.

⁵ For a quantitative reconciliation for the three months ended June 30, 2026, see page 65.

Total Projects Fully Placed In-Service				602,862	\$ 465,814	\$ 519,600	\$ —	\$ —	\$ 53,786	98 %	\$ 8,824

¹ A project is classified as Construction in Progress when (1) construction or supply contracts have been signed, physical improvements have commenced or a lease has been signed and (2) capitalized interest has commenced.

² Includes income (loss) and interest carry on debt and equity investment.

³ Represents percentage leased as of July 24, 2026, including leases with future commencement dates.

⁴ Represents the portion of the project that no longer qualifies for capitalization of interest in accordance with GAAP.

⁵ Amounts represent Net Operating Income (Loss) for the three months ended June 30, 2026. For partially owned properties, amount represents BXP's share based on its ownership percentage. See the Definitions and Reconciliations sections of this supplemental package starting on page 56.

⁶ Reservoir Place consists of approximately 528,000 rentable square feet of which approximately 165,000 square feet is in-service. For additional detail, see page 23.

⁷ On July 28, 2026, the Company closed on a \$1.2 billion construction loan reducing its future equity spend to \$341 million.

⁸ Residential Projects are shown in gross square feet beginning Q1 2026.

⁹ Total Financing and Amount Drawn includes the Company's share of the \$225 million construction loan and \$65 million of preferred equity. The Company provided the preferred equity, which accrues at a 13% internal rate of return and has been fully funded.

¹⁰ Total percentage leased excludes Residential units.

¹¹ The Estimated Total Investment has been reduced by \$20 million, of which, the Company will receive 100%. The project budget reflects the Company's 55% share of joint venture costs related to 290 Binney Street. The Company has the sole obligation to construct an underground electrical vault for an estimated gross cost of \$183.9 million. Upon completion, the Company has entered into a contract to sell the electrical vault to a third party for a fixed price of \$84.1 million. The net investment of \$99.8 million will be included in the Company's outside basis in 290 Binney Street. The Company has invested \$147.1 million for the vault as of June 30, 2026.

as of June 30, 2026

¹ Includes properties that are no longer considered "in-service" because the occupancy percentage is below 50% and the Company anticipates a future development / redevelopment of the property. During the six months ended June 30, 2026, approximately 260,000 net rentable square feet were removed from the Company's in-service properties portfolio in anticipation of future redevelopment. There can be no assurance that the Company will develop or redevelop these land parcels and properties for office, residential or other uses, if at all. Actual uses may differ from those shown depending on, among other things, the outcome of the permitting and/or entitlement processes for each land parcel/property.

² Represents 100% of consolidated and unconsolidated projects.

³ The Company expects to be a 50% partner in the future development of these sites.

for the three months ended June 30, 2026

¹ The GAAP interest rate differs from the stated interest rate due to the inclusion of the amortization of financing charges, the effects of hedging transactions (excluding capped calls classified as equity) and adjustments required to reflect loans and swaps at their fair values upon consolidation.

² The stated interest rate includes the effects of hedging transactions.

³ All unsecured senior notes and unsecured exchangeable senior notes are rated BBB (negative), and Baa2 (stable) by S&P and Moody's, respectively.

⁴ The GAAP interest rate excludes capped call transactions that are classified as equity. The initial exchange rate of the unsecured exchangeable senior notes is 10.8180 shares of BXP's common stock per \$1,000 principal amount of notes, which represents an initial exchange price of approximately \$92.44 per share of BXP's common stock. In conjunction with the issuance of the unsecured exchangeable senior notes, the Company entered into capped call transactions to cover, subject to customary adjustments, the number of shares of BXP's common stock initially underlying the unsecured exchangeable senior notes. The capped call transactions are expected generally to reduce the potential dilution to BXP's common stock upon any exchange of notes and/or offset any cash payments BPLP is required to make in excess of the principal amount of exchanged notes, as the case may be, with such reduction and/or offset subject to a cap. The cap price of the capped call transactions is initially \$105.64 per share, which represents a premium of 40% over the last reported sale price of \$75.46 per share of BXP's common stock on September 24, 2025, and is subject to certain adjustments under the terms of the capped call transactions. The capped call transactions will expire upon the maturity of the unsecured exchangeable senior notes, if not earlier exercised or terminated, and the premiums associated with the purchase were classified as equity.

⁵ Values are based on the June 30, 2026 closing price of \$66.31 per share of BXP common stock.

⁶ Amount is calculated based on the Company's percentage ownership interest in the unconsolidated joint venture entities. For additional detail, see page 35.

⁷ Amount is calculated based on the outside partners' percentage ownership interest in the consolidated joint venture entities. For additional detail, see page 33.

⁸ See the Definitions and Reconciliations sections of this Supplemental package starting on page 56.

¹ Excludes unconsolidated joint ventures. For information on BXP's share of unconsolidated joint venture debt, see page 35.

² The unsecured commercial paper program is backstopped by available capacity under the unsecured line of credit. As such, the Company intends to maintain, at a minimum, availability under its unsecured line of credit in an amount equal to the amount of commercial paper notes outstanding. The term of the notes issued under the unsecured commercial paper program vary but may not exceed one year from the date of issuance. The commercial paper notes are included in the Company's floating rate debt statistics. At June 30, 2026, the weighted average interest rate of the commercial paper notes outstanding was approximately 4.11% per annum and had a weighted-average maturity of 41 days from the date of issuance and therefore, the balance is reflected in the period 2026 within the Principal due at Maturity chart.

³ The 2024 Unsecured Term Loan has two, one-year extension options, subject to customary conditions.

⁴ The Unsecured Term Loan Facility has two, six-month extension options, each subject to customary conditions.

⁵ The GAAP interest rate differs from the stated interest rate due to the inclusion of the amortization of financing charges, the effects of hedging transactions (excluding capped calls classified as equity) and adjustments required to reflect loans and swaps at their fair values upon consolidation.

⁶ The Fixed Rate Debt includes the effects of hedging transactions, excluding capped calls treated as equity.

In the fourth quarter of 2002, the Company's Operating Partnership (Boston Properties Limited Partnership) received investment grade ratings on its senior unsecured debt securities and thereafter issued unsecured notes. The notes were issued under an indenture, dated as of December 13, 2002, by and between Boston Properties Limited Partnership and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented from time to time (the "Indenture"), which, among other things, requires us to comply with the following limitations on incurrence of debt: Limitation on Outstanding Debt; Limitation on Secured Debt; Ratio of Annualized Consolidated EBITDA to Annualized Interest Expense; and Maintenance of Unencumbered Assets. Compliance with these restrictive covenants requires us to apply specialized terms the meanings of which are described in detail in our filings with the SEC, and to calculate ratios in the manner prescribed by the Indenture.

This section presents such ratios as of June 30, 2026 to show that the Company's Operating Partnership was in compliance with the terms of the Indenture, which has been filed with the SEC. Management is not presenting these ratios for any other purpose or for any other period, and is not intending for these measures to otherwise provide information to investors about the Company's financial condition or results of operations. Investors should not rely on these measures other than for purposes of testing our compliance with the Indenture.

COVENANT RATIOS AND RELATED DATA

		Senior Notes Issued Prior to December 4, 2017	Senior Notes Issued On or After December 4, 2017
	Test	Actual	
Total Outstanding Debt/Total Assets ¹	Less than 60%	46.5 %	43.4 %
Secured Debt/Total Assets	Less than 50%	15.2 %	14.2 %
Interest Coverage (Annualized Consolidated EBITDA to Annualized Interest Expense)	Greater than 1.50x	3.20	3.20
Unencumbered Assets/ Unsecured Debt	Greater than 150%	238.2 %	257.9 %

¹ Capitalized Property Value for senior notes issued prior to December 4, 2017 is determined for each property and is the greater of (A) annualized EBITDA capitalized at an 8.0% rate for CBD properties and a 9.0% rate for non-CBD properties, and (B) the undepreciated book value as determined under GAAP. Capitalized property value for senior notes issued on or after December 4, 2017 is determined for each property and is the greater of (x) annualized EBITDA capitalized at 7.0% and (y) the undepreciated book value as determined under GAAP.

		Stated Rates	GAAP Rates ²	Maturity (years)
Floating Rate Debt	19.87 %	6.47 %	6.99 %	1.3
Fixed Rate Debt	80.13 %	4.52 %	4.83 %	4.1
Total Debt	100.00 %	4.91 %	5.26 %	3.6

¹ Amounts represent BXP's share based on its ownership percentage.

² The GAAP interest rate differs from the stated interest rate due to the inclusion of the amortization of financing charges, which includes mortgage recording fees, the effects of hedging transactions (if any) and adjustments required under Accounting Standards Codification 805 "Business Combinations" to reflect loans at their fair values (if any).

³ The construction financing has a borrowing capacity of \$98.7 million.

⁴ The Company completed the sale of the property on September 17, 2025 and is currently in the process of dissolving the joint venture.

⁵ This investment includes a net deficit balance from the amenity joint venture.

⁶ The indebtedness consists of (x) a senior loan with a third-party lender with a principal amount of \$108.0 million that bears interest at a variable rate equal to Term SOFR plus 5.25% per annum and (y) a mezzanine loan provided by the Company with a maximum commitment of \$50.0 million that bears interest at a variable rate equal to Term SOFR plus 7.25% per annum. As of June 30, 2026, the Company has funded approximately \$25.4 million of the mezzanine loan. The loan is reflected as related party notes receivable, net on the Company's Consolidated Balance Sheets.

⁷ The construction financing has a borrowing capacity of \$225.0 million.

⁸ The Company has fully funded the first \$65.0 million of required capital through its preferred equity investment accruing at a 13% internal rate of return and is to be redeemed, in full, upon the earlier of two years after stabilization or March 5, 2030.

⁹ The indebtedness consists of (x) a \$70.0 million mortgage loan payable (Note A) and (y) a \$35.0 million mortgage loan payable (Note B), which both bear interest at a fixed rate of 6.88% per annum. The Company provided \$10.5 million (or 30%) of the Note B mortgage financing to the joint venture. The loan is reflected as related party notes receivable, net on the Company's Consolidated Balance Sheets.

¹⁰ No amounts have been drawn under the \$68.2 million construction facility.

¹ For the Company's definitions and related disclosures, see the Definitions section of this Supplemental package starting on page 56.² Includes partially placed in-service leased space. Does not include residential units and hotel.³ Does not include data for leases expiring in a particular year when leases for the same space have already been signed with replacement clients with future commencement dates. In those cases, the data is included in the year in which the replacement lease expires.⁴ Represents rentable square footage that is anticipated to become vacant in the noted period.

With the exception of Green Street Advisors, an independent research firm, the equity analysts listed below are those analysts that, according to Thomson Reuters Corporation, have published research material on the Company and are listed as covering the Company. Please note that any opinions, estimates or forecasts regarding the Company's performance made by the analysts listed below do not represent the opinions, estimates or forecasts of the Company or its management. The Company does not by its reference below imply its endorsement of or concurrence with any information, conclusions or recommendations made by any of such analysts.

This section contains definitions of certain non-GAAP financial measures and other terms that the Company uses in this Supplemental report and, if applicable, the reasons why management believes these non-GAAP financial measures provide useful information to investors about the Company's financial condition and results of operations and the other purposes for which management uses the measures. Additional detail can be found in the Company's most recent annual report on Form 10-K and quarterly report on Form 10-Q, as well as other documents the Company files or furnishes to the SEC from time to time.

The Company presents "**BCP's Share**" of certain non-GAAP financial measures that are calculated as the consolidated amount calculated in accordance with GAAP, plus the Company's share of the amount from the Company's unconsolidated joint ventures (calculated based upon the Company's percentage ownership interest and, in some cases, after priority allocations), minus the Company's partners' share of the amount from the Company's consolidated joint ventures (calculated based upon the partners' percentage ownership interests and, in some cases, after income allocation to private REIT shareholders and their share of fees due to the Company). Management believes that presenting "BCP's Share" of these measures provides useful information to investors regarding the Company's financial condition and/or results of operations because the Company has several significant joint ventures and, in some cases, the Company exercises significant influence over, but does not control, the joint venture, in which case GAAP requires that the Company account for the joint venture entity using the equity method of accounting and the Company does not consolidate it for financial reporting purposes. In other cases, GAAP requires that the Company consolidate the venture even though the Company's partner(s) owns a significant percentage interest. As a result, management believes that presenting BCP's Share of various financial measures in this manner can help investors better understand the Company's financial condition and/or results of operations after taking into account its true economic interest in these joint ventures. The Company cautions investors that the ownership percentages used in calculating "BCP's Share" of these measures may not completely and accurately depict all of the legal and economic implications of holding an interest in a consolidated or unconsolidated joint venture. For example, in addition to partners' interests in profits and capital, venture agreements vary in the allocation of rights regarding decision making (both routine and major decisions), distributions, transferability of interests, financings and guarantees, liquidations and other matters. As a result, presentations of "BCP's Share" of a financial measure should not be considered a substitute for, and should only be considered together with and as a supplement to, the Company's financial information presented in accordance with GAAP. Unless noted otherwise, reconciliations of "BCP's Share" of these financial measures can be found in the Reconciliations section of this Supplemental package starting on page 60.

The Company may also present "BCP's Share" of certain operating metrics, such as occupancy and leased percentages based upon square footage. Amounts are calculated based on our consolidated portfolio square feet, plus our share of the square feet from the unconsolidated joint venture properties (calculated based on our ownership percentage), minus our partners' share of square feet from our consolidated joint venture properties (calculated based upon the partners' percentage ownership interests).

Annualized Rental Obligations

Annualized Rental Obligations is defined as monthly Rental Obligations, as of the last day of the reporting period, multiplied by twelve (12).

Average Economic Occupancy

Average Economic Occupancy is defined as (1) total possible revenue less vacancy loss divided by (2) total possible revenue, expressed as a percentage. Total possible revenue is determined by valuing average occupied units at contract rates and average vacant units at Market Rents. Vacancy loss is determined by valuing vacant units at current Market Rents. By measuring vacant units at their Market Rents, Average Economic Occupancy takes into account the fact that units of different sizes and locations within a residential property have different economic impacts on a residential property's total possible gross revenue.

Average Monthly Rental Rates

Average Monthly Rental Rates are calculated by the Company as the average of the quotients obtained by dividing (A) rental revenue as determined in accordance with GAAP by (B) the number of occupied units for each month within the applicable fiscal period.

Average Physical Occupancy

Average Physical Occupancy is defined as (1) the average number of occupied units divided by (2) the total number of units, expressed as a percentage.

Debt to Market Capitalization Ratio

Consolidated Debt to Consolidated Market Capitalization Ratio is a measure of leverage commonly used by analysts in the REIT sector that equals the quotient of (A) the Company's Consolidated Debt divided by (B) the Company's Consolidated Market Capitalization, presented as a percentage. **Consolidated Market Capitalization** is the sum of (x) the Company's Consolidated Debt plus (y) the market value of the Company's outstanding equity securities calculated using the closing price per share of common stock of the Company, as reported by the New York Stock Exchange, multiplied by the sum of (1) outstanding shares of common stock of the Company, (2) outstanding common units of limited partnership interest in Boston Properties Limited Partnership (excluding common units held by the Company), (3) common units issuable upon conversion of all outstanding LTIP Units, assuming all conditions have been met for the conversion of the LTIP Units, (4) common units issuable upon conversion of 2012 OPP Units that were issued in the form of LTIP Units, and (5) common units issuable upon conversion of 2013-2023 MYLTIP Units that were issued in the form of LTIP Units. The calculation of Consolidated Market Capitalization does not include LTIP Units issued in the form of MYLTIP Awards or Outperformance Awards unless and until certain performance thresholds are achieved and they are earned. Because their three-year performance periods have not yet ended, 2024, 2025 and 2026 MYLTIP Units and 2025 Outperformance Units are not included.

The Company also presents **BCP's Share of Market Capitalization**, which is calculated in a similar manner, except that BCP's Share of Debt is utilized instead of the Company's Consolidated Debt in both the numerator and the denominator. The Company presents these ratios because its degree of leverage could affect its ability to obtain additional financing for working capital, capital expenditures, acquisitions, development or other general corporate purposes and because different investors and lenders consider one or both of these ratios. Investors should understand that these ratios are, in part, a function of the market price of the common stock of the Company, and as such will fluctuate with changes in such price and do not necessarily reflect the Company's capacity to incur additional debt to finance its activities or its ability to manage its existing debt obligations. However, for a company like BXP, Inc., whose assets are primarily income-producing real estate, these ratios may provide investors with an alternate indication of leverage, so long as they are evaluated along with the ratio of indebtedness to other measures of asset value used by financial analysts and other financial ratios, as well as the various components of the Company's outstanding indebtedness.

Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate (EBITDAre)

Pursuant to the definition of Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("Nareit"), the Company calculates EBITDAre as net income (loss) attributable to BXP, Inc., the most directly comparable GAAP financial measure, plus net income (loss) attributable to noncontrolling interests, interest expense, losses (gains) from early extinguishments of debt, depreciation and amortization expense, impairment losses and adjustments to reflect the Company's share of EBITDAre from unconsolidated joint ventures less gains (losses) on sales of real estate and sales-type leases. EBITDAre is a non-GAAP financial measure. The Company uses EBITDAre internally as a performance measure and believes EBITDAre provides useful information to investors regarding its financial condition and results of operations at the corporate level because, when compared across periods, EBITDAre reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, general and administrative expenses and acquisition and development activities on an unleveraged basis, providing perspective not immediately apparent from net income (loss) attributable to BXP, Inc.

In some cases the Company also presents (A) **BXP's Share of EBITDAre – cash**, which is BXP's Share of EBITDAre after eliminating the effects of straight-line rent (excluding the impact related to deferred revenue related to improvements to long-lived assets paid for by a client), fair value lease revenue, amortization and accretion of sales type lease receivable, non-cash termination income adjustment (fair value lease amounts) and non-cash gains (losses) from early extinguishment of debt and adding straight-line ground rent expense (excluding prepaid ground rent expense), stock-based compensation expense and lease transaction costs that qualify as rent inducements, and (B) **Annualized EBITDAre**, which is EBITDAre for the applicable fiscal quarter ended multiplied by four (4). Presenting BXP's Share of EBITDAre – cash allows investors to compare EBITDAre across periods without taking into account the effect of certain non-cash rental revenues, ground rent expense and stock based compensation expense. Similar to depreciation and amortization, because of historical cost accounting, fair value lease revenue may distort operating performance measures at the property level. Additionally, presenting EBITDAre excluding the impact of straight-line rent provides investors with an alternative view of operating performance at the property level that more closely reflects rental revenue generated at the property level without regard to future contractual increases in rental rates. In addition, the Company's management believes that the presentation of Annualized EBITDAre provides useful information to investors regarding the Company's results of operations because it enables investors to more easily compare quarterly EBITDAre to EBITDAre from full fiscal years.

The Company's computation of EBITDAre may not be comparable to EBITDAre reported by other REITs or real estate companies that do not define the term in accordance with the current Nareit definition or that interpret the current Nareit definition differently. The Company believes that in order to facilitate a clear understanding of its operating results, EBITDAre should be examined in conjunction with net income (loss) attributable to BXP, Inc. as presented in the Company's consolidated financial statements. EBITDAre should not be considered a substitute to net income (loss) attributable to BXP, Inc. in accordance with GAAP or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

Fixed Charge Coverage Ratio

Fixed Charge Coverage Ratio equals **BXP's Share of EBITDAre – cash** divided by **Total Fixed Charges**. BXP's Share of EBITDAre – cash is a non-GAAP financial measure equal to BXP's Share of EBITDAre after eliminating the effects of straight-line rent (excluding the impact related to deferred revenue related to improvements to long-lived assets paid for by a client), fair value lease revenue, amortization and accretion related to sales type lease receivable, non-cash termination income adjustment (fair value lease amounts) and non-cash gains (losses) from early extinguishment of debt and adding straight-line ground rent expense, stock-based compensation expense and lease transaction costs that qualify as rent inducements. **Total Fixed Charges** is also a non-GAAP financial measure equal to the sum of BXP's Share of interest expense, capitalized interest, maintenance capital expenditures, hotel improvements, equipment upgrades and replacements and preferred dividends/distributions less hedge amortization and amortization of financing costs. The Company believes that the presentation of its Fixed Charge Coverage Ratio provides investors with useful information about the Company's financial performance as it relates to overall financial flexibility and balance sheet management. Furthermore, the Company believes that the Fixed Charge Coverage Ratio is frequently used by analysts, rating agencies and other interested parties in the evaluation of the Company's performance as a REIT and, as a result, by presenting the Fixed Charge Coverage Ratio the Company assists these parties in their evaluations. The Company's calculation of its Fixed Charge Coverage Ratio may not be comparable to the ratios reported by other REITs or real estate companies that define the term differently and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP. For clarification purposes, this ratio does not include gains (losses) from early extinguishments of debt.

Funds Available for Distribution (FAD) and FAD Payout Ratio

In addition to FFO, which is defined on the following page, the Company presents Funds Available for Distribution to common shareholders and common unitholders (FAD), which is a non-GAAP financial measure that is calculated by (1) adding to FFO lease transaction costs that qualify as rent inducements, non-real estate depreciation and amortization, non-cash losses (gains) from early extinguishments of debt, stock-based compensation expense, partners' share of consolidated and unconsolidated joint venture 2nd generation tenant improvement and leasing commissions (included in the period in which the lease commences) and unearned portion of capitalized fees, (2) eliminating the effects of straight-line rent, straight-line ground rent expense adjustment (excluding prepaid ground rent expense), hedge amortization, fair value interest adjustment, fair value lease revenue and amortization and accretion related to sales type lease receivable, and (3) subtracting maintenance capital expenditures, hotel improvements, equipment upgrades and replacements, 2nd generation tenant improvement and leasing commissions (included in the period in which the lease commences), non-cash termination income adjustment (fair value lease amounts) and impairments of non-depreciable real estate. The Company believes that the presentation of FAD provides useful information to investors regarding the Company's results of operations because FAD provides supplemental information regarding the Company's operating performance that would not otherwise be available and may be useful to investors in assessing the Company's operating performance. Additionally, although the Company does not consider FAD to be a liquidity measure, as it does not make adjustments to reflect changes in working capital or the actual timing of the payment of income or expense items that are accrued in the period, the Company believes that FAD may provide investors with useful supplemental information regarding the Company's ability to generate cash from its operating performance and the impact of the Company's operating performance on its ability to make distributions to its shareholders. Furthermore, the Company believes that FAD is frequently used by analysts, investors and other interested parties in the evaluation of its performance as a REIT and, as a result, by presenting FAD the Company is assisting these parties in their evaluation. FAD should not be considered as a substitute for net income (loss) attributable to BXP, Inc.'s co determined in accordance with GAAP or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

FAD Payout Ratio is defined as distributions to common shareholders and unitholders (excluding any special distributions) divided by FAD.

Funds from Operations (FFO)

Pursuant to the revised definition of Funds from Operations adopted by the Board of Governors of Nareit, the Company calculates Funds from Operations, or "FFO," by adjusting net income attributable to BXP, Inc. (computed in accordance with GAAP) for gains (or losses) from sales of properties or a change in control, impairment losses on depreciable real estate consolidated on the Company's balance sheet, impairment losses on its investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated joint ventures and real estate-related depreciation and amortization. FFO is a non-GAAP financial measure, but the Company believes the presentation of FFO, combined with the presentation of required GAAP financial measures, has improved the understanding of operating results of REITs among the investing public and has helped make comparisons of REIT operating results more meaningful. Management generally considers FFO and FFO per share to be useful measures for understanding and comparing the Company's operating results because, by excluding gains and losses related to sales or a change in control of previously depreciated operating real estate assets, impairment losses and real estate asset depreciation and amortization (which can differ across owners of similar assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO per share can help investors compare the operating performance of a company's real estate across reporting periods and to the operating performance of other companies.

The Company's computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current Nareit definition or that interpret the current Nareit definition differently. In order to facilitate a clear understanding of the Company's operating results, FFO should be examined in conjunction with net income attributable to BXP, Inc. as presented in the Company's consolidated financial statements. FFO should not be considered as a substitute for net income attributable to BXP, Inc. (determined in accordance with GAAP) or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

In-Service Properties

The Company treats a property as being "in-service" upon the earlier of (1) lease-up and completion of tenant improvements or (2) one year after cessation of major construction activity as determined under GAAP. The determination as to when an entire property should be treated as "in-service" involves a degree of judgment and is made by management based on the relevant facts and circumstances of the particular property. For portfolio operating and occupancy statistics, the Company specifies a single date for treating a property as "in-service," which is generally later than the date the property is partially placed in-service under GAAP. Under GAAP, a property may be placed in-service in stages as construction is completed and the property is held available for occupancy. In addition, under GAAP, when a portion of a property has been substantially completed and either occupied or held available for occupancy, the Company ceases capitalizing costs on that portion, even though it may not treat the property as being "in-service," and continues to capitalize only those costs associated with the portion still under construction. In-service properties include properties held by the Company's unconsolidated joint ventures. A property will no longer be considered "in-service" when the occupied percentage is below 50% and the Company anticipates a future development/redevelopment of the property.

Interest Coverage Ratio

Interest Coverage Ratio, calculated including and excluding capitalized interest, is a non-GAAP financial measure equal to **BXP's Share of EBITDAre – cash** divided by Adjusted interest expense. BXP's Share of EBITDAre – cash is a non-GAAP financial measure equal to BXP's Share of EBITDAre after eliminating the effects of straight-line rent (excluding the impact related to deferred revenue related to improvements to long-lived assets paid for by a client), fair value lease revenue, amortization and accretion related to sales type lease receivable, non-cash termination income adjustment (fair value lease amounts) and non-cash gains (losses) from early extinguishment of debt and adding straight-line ground rent expense (excluding prepaid ground rent expense), stock-based compensation expense and lease transaction costs that qualify as rent inducements. Adjusted interest expense excluding capitalized interest is equal to BXP's Share of interest expense less (1) BXP's Share of hedge amortization, (2) BXP's Share of fair value interest adjustment and (3) BXP's Share of amortization of financing costs. Adjusted interest expense including capitalized interest is calculated in the same manner but adds back BXP's Share of capitalized interest. The Company believes that the presentation of its Interest Coverage Ratio provides useful information about the Company's financial condition because it provides investors additional information on the Company's ability to meet its debt obligations and incur additional indebtedness. In addition, by analyzing interest coverage ratios over a period of time, trends may emerge that provide investors a better sense of whether a company's financial condition is improving or declining. The ratios may also be used to compare the financial condition of different companies, which can help when making an investment decision. The Company presents its Interest Coverage Ratio in two ways - including capitalized interest and excluding capitalized interest. GAAP requires the capitalization of interest expense during development. Therefore, for a company like BXP, Inc. that is an active developer of real estate, presenting the Interest Coverage Ratio (excluding capitalized interest) provides an alternative measure of financial condition that may be more indicative of the Company's ability to meet its interest expense obligations and therefore its overall financial condition. For clarification purposes, this ratio does not include gains (losses) from early extinguishments of debt.

Market Rents

Market Rents used by the Company in calculating Average Economic Occupancy are based on the current market rates set by the managers of the Company's residential properties based on their experience in renting their residential property's units and publicly available market data. Trends in market rents for a region as reported by others could therefore vary materially. Market Rents for a period are based on the average Market Rents during that period and do not reflect any impact for cash concessions.

Net Debt

Net Debt is equal to (A) the Company's consolidated debt plus special dividends payable (if any) less (B) cash and cash equivalents and cash held in escrow for potential Section 1031 like kind exchange(s) (if any). The Company believes that the presentation of Net Debt provides useful information to investors because the Company reviews Net Debt as part of the management of its overall financial flexibility, capital structure and leverage. In particular, Net Debt is an important component of the Company's ratio of **BXP's Share of Net Debt to BXP's Share of EBITDAre**. BXP's Share of Net Debt is calculated in a similar manner to Net Debt, except that (1) BXP's Share of Debt is utilized instead of the Company's consolidated debt after eliminating BXP's Share of the related party note receivable and (2) BXP's Share of cash is utilized instead of consolidated cash. The Company believes BXP's Share of Net Debt to BXP's Share of EBITDAre is useful to investors because it provides an alternative measure of the Company's financial flexibility, capital structure and leverage based on its percentage ownership interest in all of its assets. Furthermore, certain debt rating agencies, creditors and credit analysts monitor the Company's Net Debt as part of their assessments of its business. The Company may utilize a considerable portion of its cash and cash equivalents at any given time for purposes other than debt reduction. In addition, cash and cash equivalents and cash held in escrow for potential Section 1031 like kind exchange(s) may not be solely controlled by the Company. The deduction of these items from consolidated debt in the calculation of Net Debt therefore should not be understood to mean that these items are available exclusively for debt reduction at any given time.

Net Operating Income (NOI)

Net operating income (NOI) is a non-GAAP financial measure equal to net income attributable to BXP, Inc., the most directly comparable GAAP financial measure, plus (1) net income attributable to noncontrolling interests, corporate general and administrative expense, payroll and related costs from management services contracts, transaction costs, depreciation and amortization expense, impairment losses, loss from early extinguishment of debt, and interest expense, less (2) development and management services revenue, direct reimbursements of payroll and related costs from management services contracts, income (loss) from unconsolidated joint ventures, gains (losses) on sales of real estate or sales type leases, gains (losses) from investments in securities, unrealized gain (loss) on non-real estate investments, and interest and other income (loss). In some cases, the Company also presents (1) **NOI – cash**, which is NOI after eliminating the effects of straight-line rent (excluding the impact related to deferred revenue related to improvements to long-lived assets paid for by a client), fair value lease revenue, amortization and accretion related to sales type lease, straight-line ground rent expense adjustment (excluding prepaid ground rent), prepaid ground rent expense and lease transaction costs that qualify as rent inducements in accordance with GAAP, and (2) **NOI and NOI – cash, in each case excluding termination income**.

The Company uses these measures internally as performance measures and believes they provide useful information to investors regarding the Company's results of operations and financial condition because, when compared across periods, they reflect the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unleveraged basis, providing perspective not immediately apparent from net income (loss). For example, interest expense is not necessarily linked to the operating performance of a real estate asset and is often incurred at the corporate level as opposed to the property level. Similarly, interest expense may be incurred at the property level even though the financing proceeds may be used at the corporate level (e.g., used for other investment activity). In addition, depreciation and amortization expense because of historical cost accounting and useful life estimates, may distort operating performance measures at the property level. Presenting NOI – cash allows investors to compare NOI performance across periods without taking into account the effect of certain non-cash rental revenues, amortization and accretion related to sales type lease receivable and ground rent expenses. Similar to depreciation and amortization expense, fair value lease revenues, because of historical cost accounting, may distort operating performance measures at the property level. Additionally, presenting NOI excluding the impact of the straight-lining of rent and amortization and accretion related to sale type lease receivable provides investors with an alternative view of operating performance at the property level that more closely reflects net cash generated at the property level on an unleveraged basis. Presenting NOI measures that exclude termination income provides investors with additional information regarding operating performance at a property level that allows them to compare operating performance between periods without taking into account termination income, which can distort the results for any given period because they generally represent multiple months or years of a client's rental obligations that are paid in a lump sum in connection with a negotiated early termination of the client's lease and are not reflective of the core ongoing operating performance of the Company's properties.

Rental Obligations

Rental Obligations is defined as the contractual base rents (but excluding percentage rent) and budgeted reimbursements from clients under existing leases. These amounts exclude rent abatements.

Rental Revenue

Rental Revenue is equal to Total revenue, the most directly comparable GAAP financial measure, less development and management services revenue and direct reimbursements of payroll and related costs from management services contracts. The Company uses Rental Revenue internally as a performance measure and in calculating other non-GAAP financial measures (e.g., NOI), which provides investors with information regarding our performance that is not immediately apparent from the comparable non-GAAP measures and allows investors to compare operating performance between periods. The Company also presents **Rental Revenue (excluding termination income)** because termination income can distort the results for any given period because it generally represents multiple months or years of a client's rental obligations that are paid in a lump sum in connection with a negotiated early termination of the client's lease and does not reflect the core ongoing operating performance of the Company's properties.

Same Properties

In the Company's analysis of NOI, particularly to make comparisons of NOI between periods meaningful, it is important to provide information for properties that were in-service and owned by the Company throughout each period presented. The Company refers to properties acquired or placed in-service prior to the beginning of the earliest period presented and owned by the Company through the end of the latest period presented as "Same Properties." "Same Properties" therefore exclude properties placed in-service, acquired, repositioned or in or held for development or redevelopment after the beginning of the earliest period presented or disposed of prior to the end of the latest period presented. Accordingly, it takes at least one year and one quarter after a property is acquired or treated as "in-service" for that property to be included in "Same Properties." Pages 21 - 24 indicate by footnote the "In-Service Properties" that are not included in "Same Properties."

(unaudited and in thousands)

BXP's Share of select items

¹ Represents the net adjustment for above- and below-market leases that are being amortized over the terms of the respective leases in place at the property acquisition dates.

² Consists of lease transaction costs that qualify as rent inducements in accordance with GAAP. Lease transaction costs are generally included in 2nd generation tenant improvements and leasing commissions in the period the lease commences.

³ Maintenance capital expenditures do not include planned capital expenditures related to acquisitions and repositioning capital expenditures.

¹ In light of the front-ended, uneven rental payments required by the Company's 99-year ground and air rights lease for the 100 Clarendon Street garage and Back Bay Transit Station in Boston, MA, and to make period-to-period comparisons more meaningful to investors, the adjustment does not include the straight-line impact of approximately \$(4,710) and \$247 for the three months ended March 31, 2026 and 2025, respectively. As of March 31, 2026, the Company has remaining lease payments aggregating approximately \$20.4 million, all of which it expects to incur by the end of 2027 with no payments thereafter. Under GAAP, the Company recognizes expense of \$(111) per quarter on a straight-line basis over the term of the lease. However, unlike more traditional ground and air rights leases, the timing and amounts of the rental payments by the Company correlate to the uneven timing and funding by the Company of capital expenditures related to improvements at Back Bay Transit Station. As a result, the amounts excluded from the adjustment each quarter through 2027 may vary significantly.

² Consists of lease transaction costs that qualify as rent inducements in accordance with GAAP.

BXP ANNOUNCES SECOND QUARTER 2026 RESULTS

Executed Approximately 1.8 Million SF of Leases in Q2; Increased Total Portfolio Occupancy by 100 Basis Points

BOSTON, MA, July 28, 2026 - BXP, Inc. (NYSE: BXP), the largest publicly traded developer, owner, and manager of premier workplaces in the United States, reported results today for the second quarter ended June 30, 2026.

Second Quarter 2026 Financial Highlights

- Revenue increased 3.1% to \$895.7 million for the quarter ended June 30, 2026, compared to \$868.5 million for the quarter ended June 30, 2025.
- Net income attributable to BXP, Inc. of \$68.6 million, or \$0.43 per diluted share (EPS), for the quarter ended June 30, 2026, compared to \$89.0 million, or \$0.56 per diluted share, for the quarter ended June 30, 2025.
 - EPS for the second quarter 2026 was less than the midpoint of BXP's guidance by \$0.02 per diluted share primarily due to a \$0.10 per diluted share non-cash impairment charge recognized in connection with the anticipated disposition of Sumner Square in Washington, DC., partially offset by \$0.08 per diluted share of higher revenues from increased occupancy and lower-than-projected net operating expenses.
- Funds from Operations (FFO) of \$283.4 million, or \$1.78 per diluted share, for the quarter ended June 30, 2026, compared to FFO of \$271.7 million, or \$1.71 per diluted share, for the quarter ended June 30, 2025.
 - FFO for the second quarter 2026 exceeded the midpoint of BXP's guidance by \$0.08 per diluted share primarily driven by higher revenues from increased occupancy and lower-than-projected net operating expenses.

Guidance

BXP provided guidance for third quarter 2026 EPS of \$0.50 - \$0.52 and FFO of \$1.80 - \$1.82 per diluted share, and updated guidance for full year 2026 EPS of \$2.14 - \$2.24 and FFO of \$6.99 - \$7.05 per diluted share.

The midpoint of full-year 2026 guidance for EPS decreased by \$0.03 per diluted share, primarily from the aforementioned impairment charge recorded in the second quarter partially offset by improved operating performance.

The midpoint of full-year 2026 guidance for FFO increased by \$0.05 per diluted share primarily due to better-than-projected portfolio performance as described above.

See "EPS and FFO per Share Guidance" below.

—more—

Leasing & Occupancy

- Executed 106 leases in the second quarter totaling approximately 1.8 million square feet with a weighted-average lease term of 9.9 years. The amount leased is approximately 129% of our historical 10-year average for the second quarter. Notable signed leases for projects under development include:
 - an approximately 148,000 square foot lease with McDermott Will & Schulte at 343 Madison Avenue in New York City, New York, bringing the pre-leased percentage of the project to 50%, and
 - an approximately 322,000 square foot lease with Boston Dynamics at Reservoir Place in Waltham, Massachusetts.
- For the second quarter, BXP's CBD portfolio of premier workplaces was 90.7% occupied and 93.6% leased (including vacant space for which we have signed leases that have not yet commenced revenue recognition in accordance with GAAP). Approximately 91.0% of BXP's Share of annualized rental obligations is derived from clients located in our CBD portfolio, underscoring the strength of BXP's strategy to invest in the highest quality buildings in dynamic urban gateway markets.
- BXP's total portfolio occupancy for the second quarter was 88.4%, an increase of 100 basis points from Q1 2026. Approximately 86% of the increase in occupancy was driven by gains across the existing portfolio and the remainder was attributable to the addition of the fully occupied 290 Binney Street property in Cambridge, Massachusetts that was placed in-service in Q2 2026.
- Total portfolio leased percentage was 91.3% (including vacant space for which we have signed leases that have not yet commenced revenue recognition in accordance with GAAP), an increase of 40 basis points from Q1 2026. As of June 30, 2026, the spread between leased and occupied square footage was 290 basis points representing approximately 1.3 million square feet of future lease commencements, with approximately 85% expected to commence before year-end 2026.

Development

- BXP fully placed in-service 290 Binney Street in Cambridge, Massachusetts. 290 Binney Street is a 16-story, 572,578 square foot laboratory/life sciences property that is 100% leased to AstraZeneca.
- BXP commenced the redevelopment of Reservoir Place an approximately 363,000 square foot building located in Waltham, Massachusetts that is 89% pre-leased to Boston Dynamics. Boston Dynamics plans to transform the property into a premier center for robotics and AI innovation.
- As part of BXP's strategy to use residential entitlements to maximize the value of its land holdings, BXP raised private equity from an institutional investor and formed a joint venture that commenced the development of a 4.7-acre land parcel into a 359-unit multi-family residential project in Herndon, Virginia. BXP has a 20% ownership interest in the joint venture and will be the development manager.

—more—

Balance Sheet & Liquidity

- On July 28, 2026, BXP entered into a \$1.2 billion construction loan for the development of 343 Madison Avenue in New York City, New York. The loan has a four-year initial term, plus a one-year extension option subject to customary conditions, and was executed on competitive terms, including an initial interest rate of Term SOFR plus 2.50%, which will be reduced to Term SOFR plus 2.25% upon the achievement of certain leasing and construction milestones. The financing represents a significant milestone in the capitalization of the project and supports the ongoing construction of one of New York City's most anticipated workplace developments.

EPS and FFO per Share Guidance:

BXP's guidance for the third quarter and full year 2026 for EPS (diluted) and FFO per share (diluted) is set forth and reconciled below. Except as described below, the estimates reflect management's view of current and future market conditions, including assumptions with respect to rental rates, occupancy levels, interest rates, the timing of the lease-up of available space, the timing of development cost outlays and development deliveries, and the earnings impact of the events referenced in this release and those referenced during the related conference call. The estimates do not include (1) possible future gains or losses or the impact on operating results from other possible future property acquisitions or dispositions not under contract as of the date hereof, (2) the impacts of any other capital markets activity, (3) future write-offs or reinstatements of accounts receivable and accrued rent balances, or (4) future impairment charges. EPS estimates may fluctuate as a result of several factors, including changes in the recognition of depreciation and amortization expense, impairment losses on depreciable real estate, and any gains or losses associated with disposition activity. BXP is not able to assess at this time the potential impact of these factors on projected EPS. By definition, FFO does not include real estate-related depreciation and amortization, impairment losses on depreciable real estate, or gains or losses associated with disposition activities. There can be no assurance that BXP's actual results will not differ materially from the estimates set forth below.

	Third Quarter 2026		Full Year 2026	
	Low	High	Low	High
Projected EPS (diluted)	\$ 0.50	\$ 0.52	\$ 2.14	\$ 2.24
Add:				
Projected Company share of real estate depreciation and amortization	1.30	1.30	5.10	5.10
Projected Company share of (gains)/losses on sales of real estate, gain on investment from unconsolidated joint venture and impairments	—	—	(0.25)	(0.29)
Projected FFO per share (diluted)	<u>\$ 1.80</u>	<u>\$ 1.82</u>	<u>\$ 6.99</u>	<u>\$ 7.05</u>

The reported results are unaudited and there can be no assurance that these reported results will not vary from the final information for the quarter ended June 30, 2026. In the opinion of management, BXP has made all adjustments considered necessary for a fair statement of these reported results.

—more—

BXP will host a conference call on Wednesday, July 29, 2026 at 10:00 AM Eastern Time, open to the general public, to discuss the second quarter results and earnings guidance, provide a business update, and discuss other business matters that may be of interest to investors. Participants who would like to join the call and ask a question may register at <https://register-conf.media-server.com/register/Bld9f8a75ce55f4add99e54bb4ba607950> to receive the dial-in numbers and unique PIN to access the call. There will also be a live audio, listen-only webcast of the call, which may be accessed in the Investors section of BXP's website at <https://investors.bxp.com/events-webcasts>. Shortly after the call, a replay of the call will be available on BXP's website at <https://investors.bxp.com/events-webcasts> for up to twelve months following the call.

Additionally, a copy of BXP's second quarter 2026 "Supplemental Operating and Financial Data" and this press release are available in the Investors section of BXP's website at investors.bxp.com.

BXP, Inc. (NYSE: BXP) is the largest publicly traded developer, owner, and manager of premier workplaces in the United States, concentrated in six dynamic gateway markets - Boston, Los Angeles, New York, San Francisco, Seattle, and Washington, DC. BXP has delivered places that power progress for our clients and communities for more than 55 years. BXP is a fully integrated real estate company, organized as a real estate investment trust (REIT). As of June 30, 2026, including properties owned by unconsolidated joint ventures, BXP's portfolio totals 51.1 million square feet and 164 properties, including six properties under construction/redevelopment. For more information about BXP, please visit our [website](#) or follow us on [LinkedIn](#) or [Instagram](#).

This press release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. You can identify these statements by our use of the words "anticipates," "believes," "budgeted," "could," "estimates," "expects," "guidance," "intends," "may," "might," "plans," "projects," "should," "will," and similar expressions that do not relate to historical matters. These statements are based on our current plans, expectations, projections and assumptions about future events. You should exercise caution in interpreting and relying on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond BXP's control. If our underlying assumptions prove inaccurate, or known or unknown risks or uncertainties materialize, actual results could differ materially from those expressed or implied by the forward-looking statements. These factors include, without limitation, the risks and uncertainties related to adverse changes in general economic and capital market conditions, including continued inflation, elevated interest rates, supply chain disruptions, dislocation and volatility in capital markets, potential longer-term changes in consumer and client behavior resulting from the severity and duration of any downturn in the U.S. or global economy, general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases on favorable terms, sustained changes in client preferences and space utilization, dependence on clients' financial condition, and competition from other developers, owners and operators of real estate), the impact of adverse political conditions, including policy changes by the U.S. Government, such as the direct and indirect negative impacts that new and increased tariffs may have on (1) our current and prospective clients and their demand for office space and (2) the costs and availability of construction materials and the economic returns on our construction and development activities, and prolonged government shutdowns or disruptions, the impact of geopolitical conflicts, the uncertainties of investing in new markets, the costs and availability of financing, the effectiveness of our hedging contracts, the ability of our joint venture partners to satisfy their obligations, the effects of local, national and international economic and market conditions, the effects of acquisitions, dispositions and possible impairment charges on our operating results, the impact of newly adopted accounting principles on BXP's accounting policies and on period-to-period comparisons of financial results, the uncertainties of costs to comply with regulatory changes and other risks and uncertainties detailed from time to time in BXP's filings with the Securities and Exchange Commission. These forward-looking statements speak only as of the date of issuance of this report and are not guarantees of future results, performance, or achievements. BXP does not undertake a duty to update or revise any forward-looking statement whether as a result of new information, future events or otherwise, except as otherwise required by law.

- (1) Pursuant to the revised definition of Funds from Operations adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (“Nareit”), we calculate Funds from Operations, or “FFO,” by adjusting net income (loss) attributable to BXP, Inc. (computed in accordance with GAAP) for gains (or losses) from sales of properties, including a change in control, impairment losses on depreciable real estate consolidated on our balance sheet, impairment losses on our investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated joint ventures and real estate-related depreciation and amortization. FFO is a non-GAAP financial measure, but we believe the presentation of FFO, combined with the presentation of required GAAP financial measures, has improved the understanding of operating results of REITs among the investing public and has helped make comparisons of REIT operating results more meaningful. Management generally considers FFO and FFO per share to be useful measures for understanding and comparing our operating results because, by excluding gains and losses related to sales or a change in control of previously depreciated operating real estate assets, impairment losses and real estate asset depreciation and amortization (which can differ across owners of similar assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO per share can help investors compare the operating performance of a company’s real estate across reporting periods and to the operating performance of other companies.

Our calculation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current Nareit definition or that interpret the current Nareit definition differently.

In order to facilitate a clear understanding of the Company’s operating results, FFO should be examined in conjunction with net income attributable to BXP, Inc. as presented in the Company’s consolidated financial statements. FFO should not be considered as a substitute for net income attributable to BXP, Inc. (determined in accordance with GAAP) or any other GAAP financial measures and should only be considered together with and as a supplement to the Company’s financial information prepared in accordance with GAAP.
